SUMMARY

Software Team Lead and Fullstack Developer with 3+ years of experience leading teams and delivering enterprise web applications for high-traffic environments. Skilled in **C#, .NET Core, Angular, React,** and **SQL.** Proven track record of driving projects from concept to launch, improve system performance, and mentor developers. Currently pursuing a B.S. in Computer Science. Passionate about building innovative, scalable solutions in fast-paced environments.

EXPERIENCE

Software Team Lead — Nov. 2021 – Present
Hobby Lobby — *Oklahoma City, OK*

- Led the development of an employee video training application, supporting thousands of daily users. Reduced API response time, improved video playback through device-side caching, and optimized stored procedures to reduce bandwidth usage.
- Built a product design application allowing employees to create and fulfill customized engraved nameplates. Integrated PDF generation to streamline manufacturing.
- Designed and developed a dynamic form builder application for Loss Prevention, enabling customizable questionnaires used as templates for store audits. Also built the audit client application, allowing store auditors to efficiently conduct and submit audit results.

EDUCATION

Oregon State University
Bachelor of Science in Computer Science

Oklahoma City Community College
Associate of Science in Computer Science

Fullstack Academy
Certificate in Software Web Development

Canadian Valley Technology Center
Computer Information & Systems

PROJECTS

Dadify | *PostgreSQL, Express, React*

- Built a full-stack e-commerce web app with secure authentication, optimized cart management, and efficient API endpoints for real-time user interactions.

Fitness Trac.kr | *PostgreSQL, Express, React*

- Developed a fitness tracking app enabling users to log and monitor workouts. Designed dynamic front-end components and optimized back-end routes for seamless user experience.
