SUMMARY

Software Team Lead and Full-Stack Engineer with 4+ years building enterprise systems in **.NET** and **Angular**. Architect of a merchandise ordering rules engine and dynamic audit form builder deployed across 1,000+ retail locations nationwide. Experienced in performance optimization, domain modeling, and leading technical direction for cross-functional initiatives. Completing a B.S. in Computer Science while maintaining a full time career.

EXPERIENCE

Hobby Lobby

Oklahoma City, OK

Software Team Lead

Feb 2025 – Present

- Designed and built a merchandise ordering rules engine (**.NET Core API, Angular, T-SQL**) enabling teams to include or exclude items by store location, layout/assortment, department, and season through a self-service admin UI.
- Reduced catalog update cycles from weekly to daily and lowered ordering errors by enabling admins to sync exclusion rules immediately across 1,000+ stores nationwide.
- Replaced a fully paper-based store audit process (print, complete on-site, mail to corporate) with a dynamic form builder supporting 12 audit/form types, enabling real-time digital data collection and reporting.
- Built a **Kafka** consumer, deployed as a **Windows Service** on existing infrastructure, to consume truck departure events and store expected trailer arrival times (ETAs) per store.
- Enabled store employees to view upcoming delivery ETAs and track unloading duration via an in-app timer, improving visibility into delivery and unloading operations.

Software Developer

Nov 2021 – Feb 2025

- Played a key role in developing an enterprise video training platform for retail store and corporate campus employees, serving 1,800 daily average users.
- Built a custom video transcoding pipeline converting uploaded training videos into web-optimized streaming formats with device-side caching via **Angular** service workers, monitored using **Dynatrace** and **Splunk**.
- Implemented internal OIDC-based authentication as a standard practice across newly developed applications; working knowledge of CI/CD concepts and pipelines (**Jenkins, Windows Server**).

JPMorgan Chase Bank

Yukon, OK

Associate Banker

Oct 2018 – May 2021

- Conducted customer transactions and account services while maintaining adherence to banking regulatory compliance procedures and completing required compliance training.
- Conducted cash audits and maintained compliance with banking regulations and internal controls.

EDUCATION

Oregon State University

June 2028

Bachelor of Science in Computer Science

GPA 3.5

Oklahoma City Community College

May 2023

Associate of Science in Computer Science

Fullstack Academy

2021

Certificate in Software Web Development

TECHNICAL SKILLS

Languages: C#, C++, Java, SQL, JavaScript/TypeScript, Python, HTML/CSS

Frameworks & Libraries: Angular, .NET Core, React, Next, Express, Bootstrap

Developer Tools: Git, Visual Studio, SSMS
